

Technology That Supports Modern Education

With STS, schools get more than a purchasing option. They get a team focused on saving time, reducing complexity, and helping educators get the right technology faster.

How STS Supports ESUCC Schools

Nebraska schools need technology partners that understand education budgets, classroom timelines, and the importance of reliable support. Through our ESUCC partnership, STS helps simplify technology purchasing by providing access to special pricing, education-ready solutions, and a dedicated team that can support schools beyond the transaction!

Our Capabilities

Student & Staff Devices

Chromebooks, laptops, tablets, and accessories to support students, teachers, administrators, and district staff.

Classroom Technology

Displays, monitors, headsets, keyboards, mice, docking stations, charging solutions, and other tools that support modern learning environments.

Simplified Purchasing

A familiar purchasing experience through ESUCC that helps schools quickly find what they need while accessing special pricing.

Dedicated Support

STS provides a team that can help with product selection, quotes, order support, and solutions that align to school and district needs.

Save Time. Spend Smarter.

STS gives ESUCC schools a simpler way to buy technology, access special pricing, and get support from a team that understands K-12 needs.

Special ESUCC Pricing

Access competitive pricing on commonly purchased technology for schools.

Time Savings

Quickly source everyday devices and accessories without unnecessary back-and-forth.

Education-Focused Support

Work with a team that understands classroom needs, school timelines, and district purchasing priorities.

More Than a Transaction

STS can help with quotes, product recommendations, order support, and future planning.
