

Schoology Learning

A CENTRALIZED PLATFORM FOR
PERSONALIZED TEACHING AND LEARNING

Schoology Learning, part of the Personalized Learning Cloud, connects teachers, students, and families in a single platform for all teaching and learning. It supports learners of all levels, across various learning models and modalities while enabling districts and schools to standardize, allowing teachers to create personalized pathways and experiences that serve the needs of the whole child.

Provide a Personalized Learning Hub

Connect students, families, teachers, and the community to learning across your entire district. More than just assignments and messaging and calendars, Schoology Learning is a one-stop-platform for educators to personalize your district's curriculum to the needs of each student.

Increase Family Engagement

Support closer connections between the classroom, district, and home by giving families a central place to engage with their child's learning. Available online or through the Schoology Learning mobile app, families can take part in their child's education from the devices they have.

Support Equity and Access

Enhance student accessibility with built-in tools such as Microsoft Immersive Reader and a unique early learner experience. Support equity of learning via centrally-managed course templates and shared resources to ensure all teachers have access to consistent, high-quality content that supports student outcomes.

Empower Students

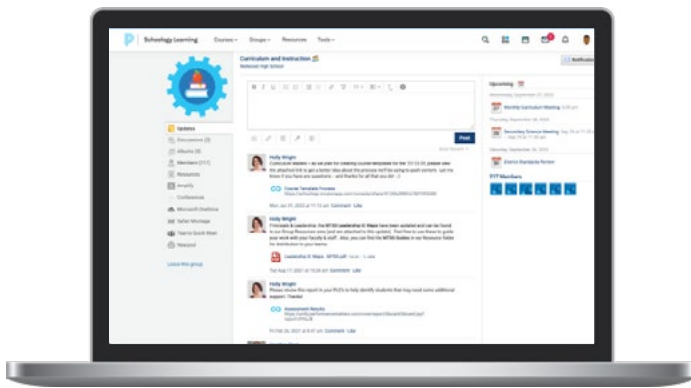

With flexible learning spaces, tailored content, and a mastery-based approach, students are empowered to engage in all kinds of resources to support and enhance their own learning.

“Schoology Learning has allowed our teachers to curate digital materials and distribute to our students anywhere and anytime. It has removed the walls of the classroom and encouraged our teachers to add digitally engaging materials to their reaching repertoire for this tech-savvy generation of students.”

STEVE SPRADLIN

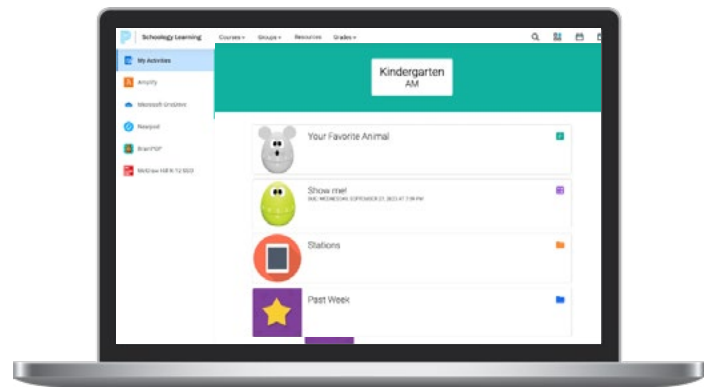

Chief Technology Officer
Muncie Community Schools, IN

With a comprehensive program to protect the security and integrity of our applications—including robust cloud security, security by design, third-party penetration testing, and a responsible disclosure program—all validated by independent third-party auditors, **PowerSchool demonstrates our commitment to protecting our customer's data.**

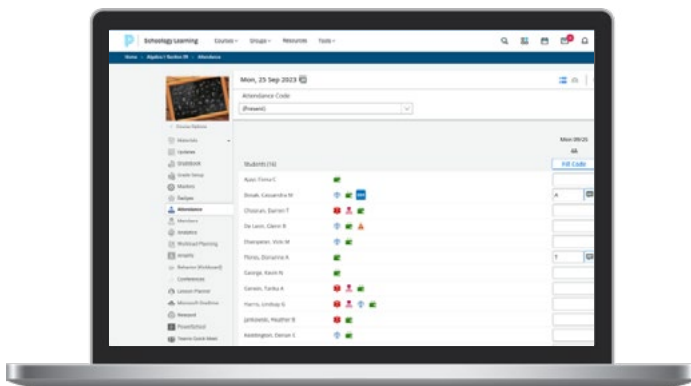

Schoology Groups & Resources

Save teachers time with dynamic lesson planning and promote communication and collaboration among students, parents, and organizations like sports teams, clubs, and parent-teacher associations.

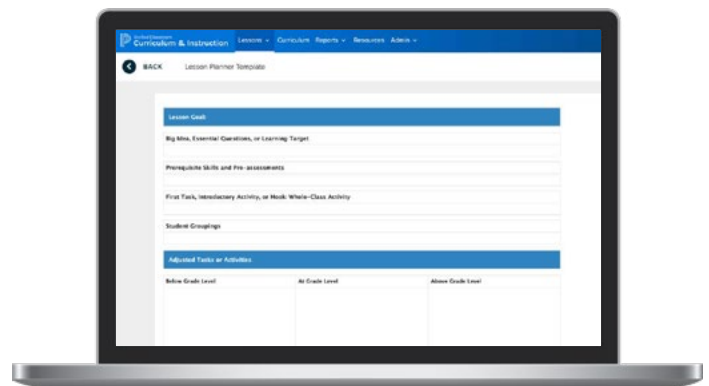

Enhanced Elementary Experience

Create a "just-right" experience for younger learners through a student interface designed to reduce cognitive load and provide multiple options for showing mastery. Students have access to only the activities they need in a singular, personalized location.

Industry Leading Integration with SIS

Traditional grades will automatically sync between Schoology and any major SIS providers, saving teachers from duplicate entry. Schools and districts who use PowerSchool SIS can additionally take advantage of the automatic syncing and passback of attendance, traditional grades, and standards-based grades.

Integrated Lesson Planner

Save teachers time with centralized lesson planning and increase collaboration. Track towards standards, monitor lesson progression, and adjust to different rotations and off-days. Lessons can be viewed and edited anywhere on iOS and Android, and can be shared easily with colleagues, students, and parents.

Improve Student Learning with Data-Driven Personalized Instruction

By connecting the Schoology Learning Suite to your PowerSchool SIS, personalized instruction and student data are more integrated than ever.

Most would agree that a firm grasp on a student's past performance is a prerequisite for personalized instruction—however, all too often, instructional resources and student data reside in multiple disconnected systems.

The **Schoology Learning Suite** gives you all the data you need, from benchmarks, social emotional learning, attendance, and more, so you can personalize educational experiences for students, no matter where they are.

Remove Barriers Between Instruction and Assessment Data

Ensure that teachers are **minimizing the time** between reviewing student assessment data, identifying standards-based instructional gaps, and delivering personalized learning experiences, no matter where students are.

Ensure a Complete View of Each Student

Provide teachers with a **comprehensive view of student progress** based on local benchmarks, third party assessments, attendance, SEL surveys, demographic data, special education alerts, as well as performance on interactive, curriculum-based activities.

Make Teachers More Effective

Give your teachers back countless hours by providing a **single, easily navigable solution** for all of their classroom tools. With less time spent juggling software tools, teachers will have more time to teach.

50%

50% of all teaching and learning tools are **not integrated** with their student information system

Foster Collaboration Throughout Your Organization

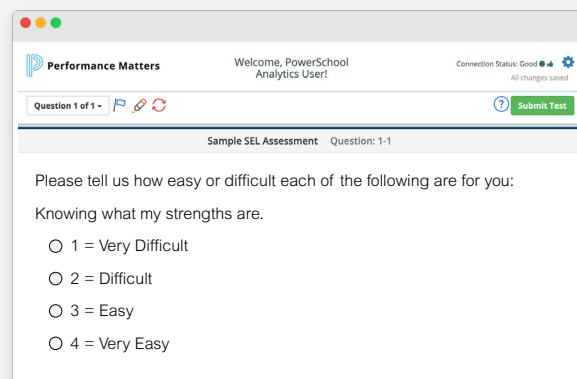

Ensure best practices are thriving within your organization. Only PowerSchool allows districts to create online spaces for everyone—teachers, PLCs, parents, and clubs—to collaborate and stay up to date on what’s going on in your district.

Save Time with Superior Data Integration

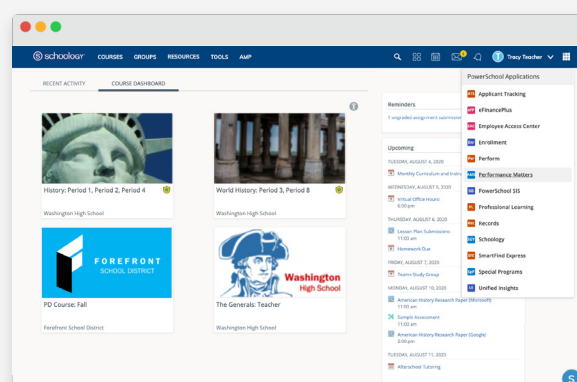

The Schoology Learning Suite provides teachers with more time to focus on instruction thanks to best-in-class data integration. For example, secured benchmark assessments can be made available to students within their course materials, performance on classroom activities can be viewed alongside third-party assessment results, and all completed assignments and assessments can sync to your PowerSchool SIS database.

Access Complete Student Data in One Location

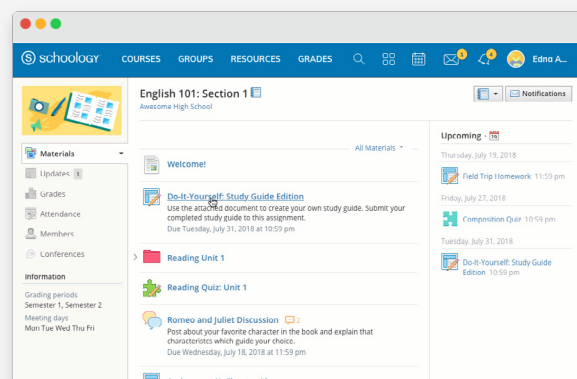

All your student data—including demographics, instructional activities, performance on local and third-party assessments, and even social-emotional learning (SEL) information—is available in one place to ensure that staff have everything they need to build out and deliver personalized instruction to students no matter where they are.
