

Over 40 years of experience in the education sector has taught us that the right technology can broaden student access to learning and ease the burden on educators and students by creating effective learning environments in any setting.

You sow the ground for lifelong learning. Bluum helps you cultivate it.

## Planning and Consultation

From consultation to design to integration, Bluum is with you at every step of the technology planning process. Why? It not only helps us design, build and support the solutions you need, but ensures they deliver results.

## Integration and Installation

Our national network of experienced integrators and installers provide professional and reliable services, including complimentary site visits and system evaluations. From installing a single product to delivering a large-scale integration, our certified technicians design, build, integrate, test, install and calibrate solutions, then provide full-spectrum technical support that keeps everything running smoothly.

## Professional Development

Understanding technology and how to use it enables teachers to improve their instruction methods and personalize learning. Many of our professional development team members are former educators who understand the real challenges of teaching with classroom technology. They've assisted more than 8000 teachers, 3,500 schools and received a 9.2 out of 10 average training satisfaction score.

## Technical Support

Bluum's support team is your first line of defense in resolving your technical issues, no matter how complex. Our industry-certified technicians provide on-demand, priority support via phone, chat and email to troubleshoot and resolve technology challenges.

## Value Add Services

Bluum offers a complete suite of education-specific services including design, pre-deployment white glove support, warranty and damage protection, flexible and scalable financial programs, grant writing, IT asset disposition (ITAD), product lifecycle management, and post-deployment sales and technical support.

## Single Solutions Provider

Bluum provides more brands, improved buying power, better support infrastructure, expanded services and better pricing to help maximize technology investments and improve purchasing efficiencies.

Our portfolio of products, solutions, and services is hand-picked to ensure that you and your students grow and flourish. Educators love how well our technology solutions complement their curriculum, and students are more engaged than ever.
