

Create, Monitor & Measure Learner Engagement

Build interactive videos with PlayPosit and transform everyday teaching and learning moments into dynamic, engaging, and memorable experiences.

Connect with students in a **medium they love**

Modern learners are already watching, creating, and sending videos all day long. Invite that interest into the classroom to maximize learning!

Empower educators to make **data-driven decisions**

Actionable analytics let educators see exactly what's working, and tailor future lessons for success.

Save time on administrative tasks

Ready-made templates, auto-grading, LMS integrations, oh my! PlayPosit gives educators the time they need to focus on students.

Foster a **community** of learners

Educators and administrators can collaborate on projects to spark dialogue, share content, and identify best practices, building resilience to teacher shortages.

Simplify your tech stack with **tools that scale**

Not just for academics, PlayPosit scales across departments to cost-effectively support student services, professional development, and more.
