

# Feel Good, Learn Better

SCHOOL DAY

## What Is School Day?

School Day is a digital service that collects feedback from students on their wellbeing, providing a data-driven solution that informs social emotional learning strategies.

Available as an application, website or Microsoft Teams integration, School Day opens a communication channel between students and the school in order to address SEL needs, whether learning remotely or face to face.

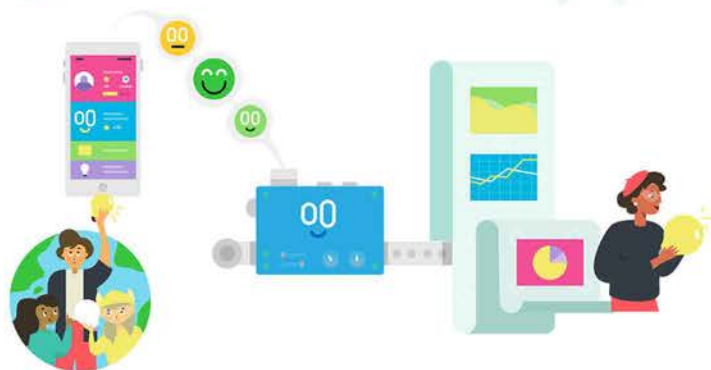

## Why Do I Need It?

School Day supports SEL in the remote, hybrid and traditional teaching environments because it is:

- Accessible
- Flexible
- Data-centric
- Integrated
- Rapid
- User-friendly

## How Do I Use It?

- Introduce School Day to your school community.
- School Day frequently sends surveys to students.
- Teachers can assess student wellbeing and share their needs with the school.
- Student survey results allow for real-time updates to see how students are doing in a classroom, or across the school.

## When Can I Get Started?

School Day is ready to implement in your school now! Learn more about getting started:
