

MAGIC SCHOOL

The leading generative AI platform for students.

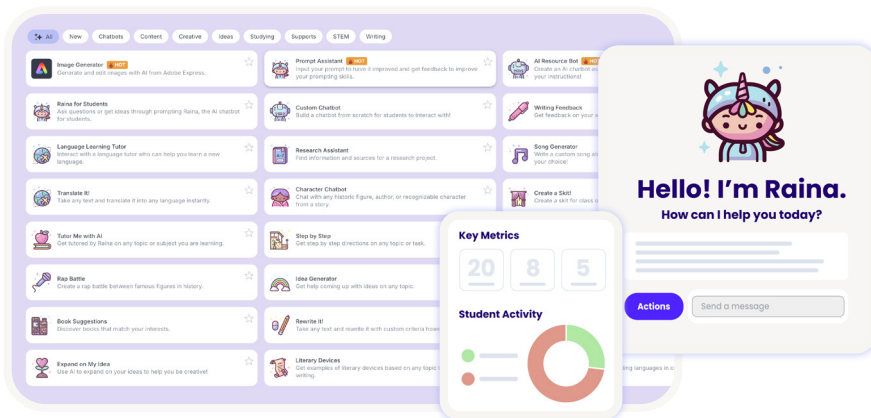

Prepare students for the future with AI—securely and effectively.

What is MagicSchool for Students?

Over 4 million educators and 10,000+ schools already choose MagicSchool for AI-powered educator tools. Extend the magic to students with MagicSchool for Students (MagicStudent).

MagicSchool for Students empowers you to provide students with the tools they need to explore AI creatively, receive tailored feedback, and access learning support to ensure equity for all learners—**while maintaining full control over data privacy, moderation, and integration into your district's systems.**

Why district leaders choose MagicSchool for Students:

Customizable AI tools align with district priorities and curriculum.

Ensures student privacy and data protection and **does not collect personally identifiable information (PII).**

Real-time analytics track student engagement and impact.

Enhanced moderation enables real-time alerts for high-risk content.

Dedicated customer support ensures seamless implementation.

Student SSO makes it easy for Enterprise customers to track student usage and trends over time.
