

What is *Brisk Teaching*?

Student feedback.
Differentiated materials.
Real-time writing insights.
And so much more.

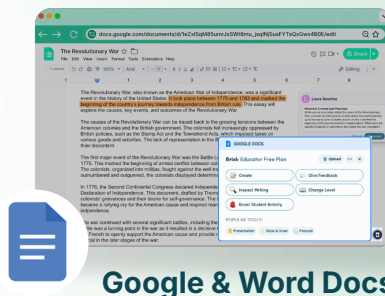

Brisk is an AI teaching assistant that lives in your Chrome or Edge browser.

Turn any resource into a lesson, scaffold, or feedback in seconds.
Just Brisk It.

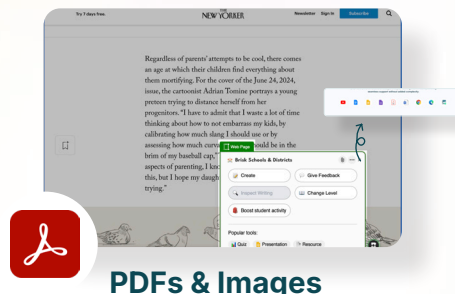

YouTube

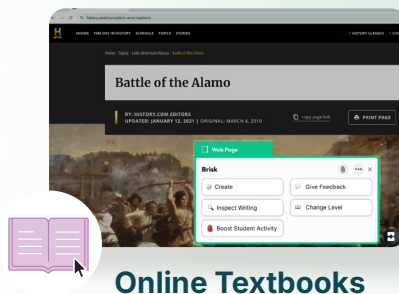

Google & Word Docs

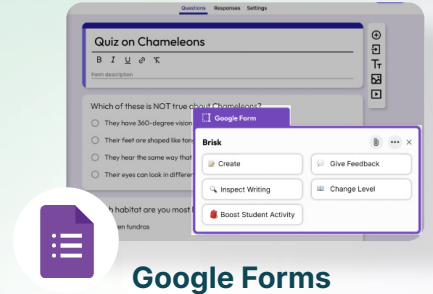

Slides & Powerpoint

PDFs & Images

Online Textbooks

Google Forms

Brisk *Lightens* Your Workload

Brisk has 5 main ways *to assist*.

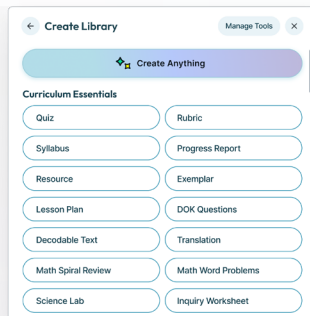

Create

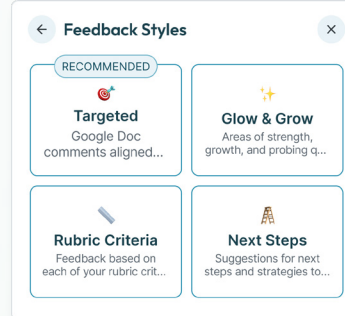

Give Feedback

Create lessons, quizzes, presentations and more from any resource on the internet

Give Feedback instantly on student writing

Inspect Writing

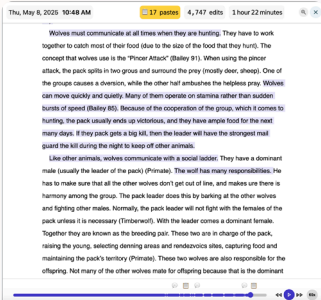

Change Level

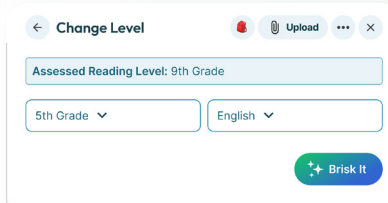

Boost Student Activity

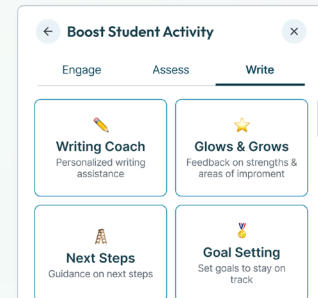

Inspect Writing to understand a student's writing process from start to finish

Change Level to adjust the reading level or translate text into 50+ languages

Boost Student Activity to turn any resource into a safe, AI-powered, interactive learning experience for students

Brisk Boost: *The Student Experience*

Turn *any* resource into a conversation for students.

1. Find a Resource

Choose any material online - like a Google Doc, YouTube video, or web article.

2. Boost It

Open the Brisk Chrome extension and Boost Student Activity to quickly turn your resource into an interactive activity.

3. Build an Activity

Decide whether you want to engage or assess your students. Then, create an activity in seconds, aligned with learning objectives.

4. Share & Monitor

Share the code with students and track student engagement!

We Take Privacy *Personally.*

93%
Privacy Rating

Ranked #1 by Common Sense

Brisk protects all district, school, teacher & student data – *always.*

Brisk puts privacy first. Your data and your students' data is never for sale, never used to train AI, and always kept secure.

What Brisk *Does*

- ✓ Collects the **least amount of data** needed to support teaching & learning
- ✓ Uses **admin, technical, and physical safeguards** to keep data secure
- ✓ Meets the highest standards for **student privacy and data protection**
- ✓ Complies with **FERPA, COPPA, GDPR, and state privacy laws**
- ✓ Signs the **National Data Privacy Agreement** and district-level agreements when needed

What Brisk *Doesn't Do*

- ✗ No selling or renting data
- ✗ No ads, ever
- ✗ No using student data or image uploads to train AI models

Brisk for Schools & Districts

Bring powerful AI to every classroom — without adding complexity.

Brisk gives every teacher an AI-powered assistant that works inside the tools they already use — helping them give better feedback, support every learner, and stay aligned to your curriculum.

It's easy to implement, built for instructional impact, and designed to support what's already working in your classrooms.

Request a demo to see how Brisk can work in your district.

Get Started in 30 Seconds.

How to Install Brisk Teaching—Free

1 Go to www.briskteaching.com

In your Chrome or Microsoft Edge browser, head to Brisk's homepage.

2 Click 'Add to Chrome For Free' button

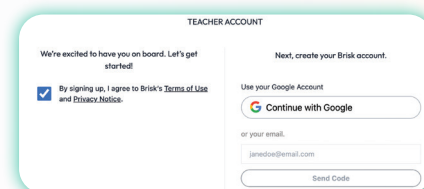

Whether you're using Chrome or Edge, just click the green button at the top right of the page to install Brisk.

3 Sign in with your Google Account

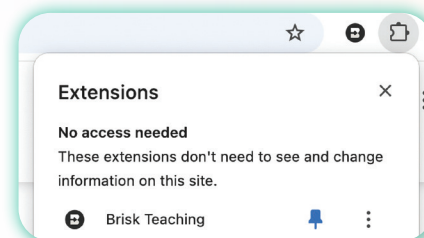

Once installed, sign in with Google so everything you create is saved directly to your Google Drive.

*You'll see a permission pop-up—standard for extensions. Brisk is safe and secure.

4 Pin Brisk to Your Toolbar

Add Brisk to your browser's toolbar so it's always there when you need it.

5 Start Brisking

Click the "B" icon in the bottom right corner of your screen and start checking things off your to-do list faster than ever.
