

# EverDriven's student transportation overview

What you need to know

## Get to know EverDriven

EverDriven is a national transportation solutions company that specializes in working with children who have special transportation needs. We have been chosen to transport some of your district's students to and from school every day, including students who attend your school.

Over the course of the last 18 years, we've worked with more than 600 school districts nationwide to provide safe and reliable transportation for all students.

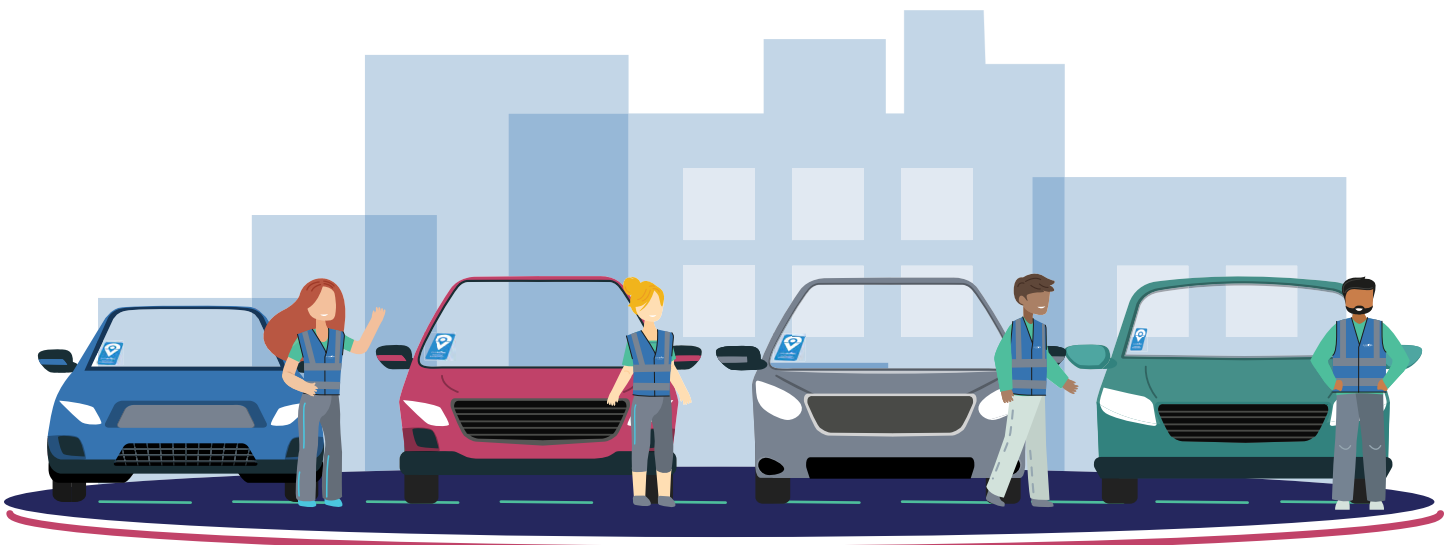

## How to contact EverDriven

Your district transportation department has been given a phone number and email address that are specific to your district. These tools are designed to help you get in touch with the team members specifically assigned to help with your students. Please contact the transportation department to get that information if it has not already been shared with you.

## How to identify vehicles working with EverDriven

All vehicles transporting students on behalf of EverDriven have a cling on the passenger side of the windshield. EverSafe Drivers also wear vests that allow school staff and parents to easily identify them.

## EverDriven's SafeRide Guidelines

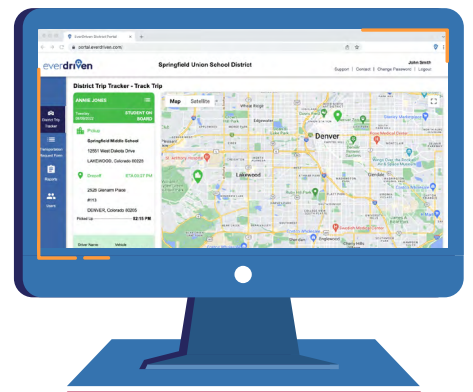

Your students' safety is our priority! As part of our EverDriven Safety Commitment, we ensure that all trips we service adhere to federal, state, local, and school district transportation requirements.

EverSafe Drivers and Monitors are required to adhere to the EverDriven SafeRide Standard, the highest safety standard in the industry. EverSafe Drivers and Monitors must pass various screening requirements, including background checks, fingerprinting, and drug and alcohol testing, before becoming eligible to drive a single student.

Additionally, the small-capacity vehicles such as sedans, minivans, and wheelchair-accessible vans used by EverSafe Drivers must also pass a 51+ point inspection conducted by our own internal team and an external third-party inspection.

## District Portal for school staff

Officials authorized by the district to use the District Portal can easily track where a student is in near real-time and see current, completed, and scheduled trips, all in one place. If you need access to the District Portal, make sure to reach out to your district's transportation department.

## VIP (Very Important Passenger) App for parents and guardians

The VIP App is designed to enable parents and guardians to track and manage their child's transportation in near real-time. This app is free to use and can be downloaded through the Google Play Store or Apple App Store. If necessary, school staff can direct parents to [everdriven.com/vip](https://everdriven.com/vip) to get set up on the app.
