

PICKUP LINES STRIPING

QUALITY THE FIRST TIME

Sharper Lots, Safer Schools

At **Pickup Lines Striping**, we love working with Nebraska schools. From elementary parking lots to high school bus loops, every line we paint shapes how safely students, parents, and staff move through your campus each day. We're a Lincoln-based, owner-operated striping company, and we'd love to help your district look its best with one simple promise: **Quality the First Time.**

- **ADA Compliance Done Right:** Properly sized accessible stalls, access aisles, and van-accessible spaces with code-correct symbols and signage placement. We know the standards schools are held to, and we make sure your lot meets them.
- **Bus Loops, Crosswalks & Drop-Off Zones:** Crisp, high-visibility markings that keep traffic moving and kids safe during the busiest minutes of the school day.
- **Fire Lanes & Safety Markings:** Code-compliant red curbs, "FIRE LANE | NO PARKING" stenciling, and reserved zones marked exactly the way fire marshals expect to see them.
- **Custom Stencils & School Branding:** Mascot logos at the front entrance, reserved staff and visitor parking, numbered stalls, no-parking zones, and any custom stencil your building needs.
- **Scheduled Around Your Calendar:** Summer breaks, weekends, evenings, holidays | we work around your school year so striping never interrupts learning or pickup.
- **Owner On Every Job:** When we show up, I show up. No subcontracted crews, no surprise pricing, and a direct line to the person responsible for the work.

Whether you're refreshing a single building's lot or coordinating across an entire ESU or district, we'd love to talk through your project. Reach out anytime.
