

Access & Delivery

YOUR LIBRARY ANYWHERE

Alexandria can be accessed through any device through any browser – no need to download apps!

It is also the only ILS to meet WCAG/ADA standards.

With unlimited user licensing, cloud-hosted data, and multiple interfaces to engage learners of all ages – you can truly have a library without limits!

Adoption & Success

UNMATCHED IN THE INDUSTRY

Our number one goal is your number one goal; to create a sophisticated and accessible learning environment that fosters higher student achievement.

Alexandria provides free, monthly live training webinars and access to our program-integrated, online Support Center. Our exclusive, in-house 24/7/365 live support is also available to anyone in your district via toll-free phone calls. Alexandria continually creates the latest industry features in our monthly releases. Your system will never be left behind.

Partnerships & Integration

CONNECTING STUDENTS TO CURRICULUM

Libraries need to have the flexibility to support and provide resources to fill their unique patrons' needs. That's why Alexandria partners with the best-in-class library solution providers who share our same mission – advocating for library success.

Whether it's through Clever, SchoolDay, Mitinet, Sora, Lightbox Learning, and many more... you can be sure you'll have a true one-size-fits-me experience!

Engagement & Discovery

CATALOG ENRICHMENT & ANALYTICS

We understand that K is different than 12. Patrons who are just learning to read need to engage with your library much differently than those reading to learn.

Alexandria's mission is to provide a solution to not only engage students, but to maximize the investment of your library by making your catalog of resources more accessible, discoverable, and easier to find.

K-12 Content Discovery Search Engine

Monarch is a unique, K-12 content discovery engine that creates **secure and personalized digital search environments** for your students & teachers, igniting lifelong learning for generations to come.

Monarch searches **ALL** your Discovery Services and Digital Libraries and returns your search results in an single interface, categorized & summarized in a very intuitive experience for you and your students!
