SKYWARD®

At Skyward, our mission is to make K-12 school administration easier for educators and families. What began in 1980 as a small Wisconsin startup has grown into a trusted partner serving more than 2,700 customers and 7.8 million students across 23 states. Our SIS and ERP platforms are built for connection, transparency, and a better school experience. With customer success at the heart of what we do, Skyward helps educators ensure they spend less time on tasks and more time with students. Learn more at www.skyward.com.

SCHOOL BUSINESS SUITE

A Better ERP Experience

BECAUSE YOUR PEOPLE ARE YOUR GREATEST ASSET.

A better experience for your community starts behind the scenes, because the central office is home to the unsung heroes of education.

Software providers have always emphasized their product's features and functionality, but next-level providers know that an effortless user experience is what's most important.

For Skyward®, it's not just about getting the job done, but also about what you experience along the way. By empowering your district with streamlined, user-friendly technology and steadfast support, we aim to be the driving force behind a more productive, collaborative, and successful learning environment.

It's financial and human resources technology, tailored to K-12.

Discover Qmlativ

Qmlativ® Education Management System, the latest evolution of Skyward technology, is the epitome of a better SIS and ERP experience.

Built to leverage the most up-to-date technology capabilities, Qmlativ is more than a promise of features and functionality. This SQL-based platform combines an enjoyable user interface with preemptive support measures and a focus on the growth and development of every user.

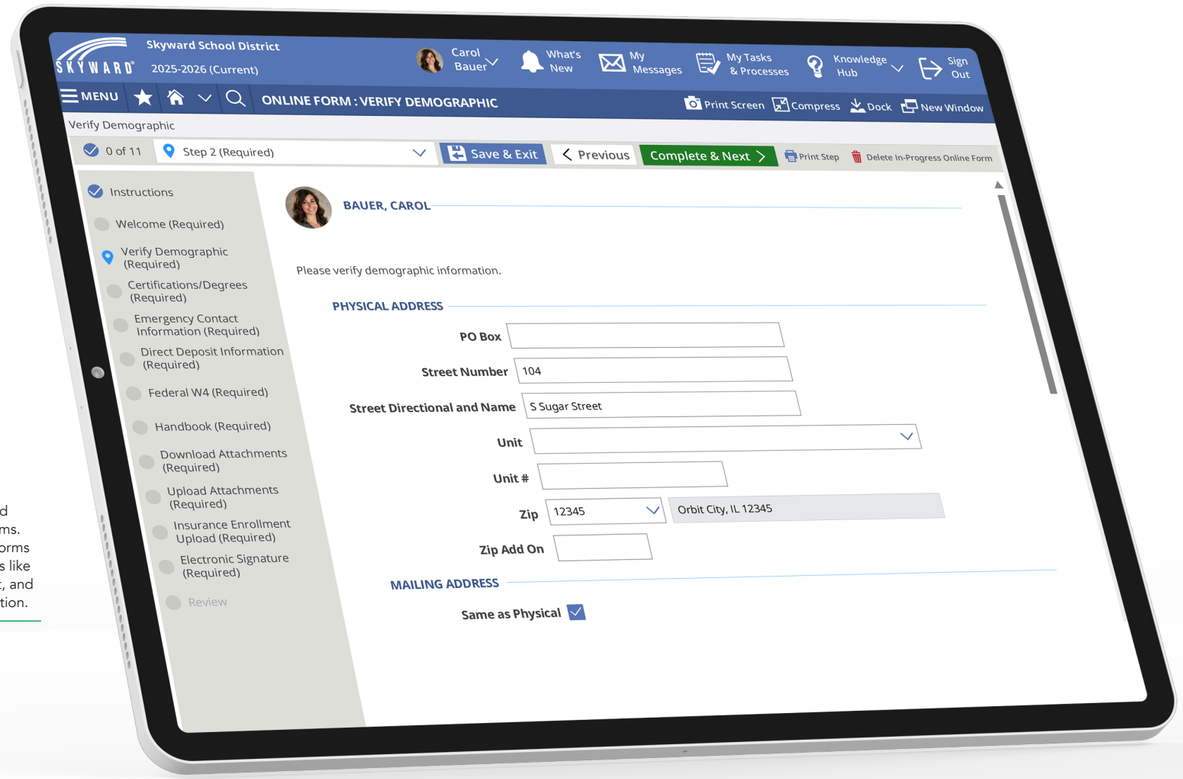

Qmlativ has been empowering school districts since 2014. Throughout that time, Skyward has continuously worked to further develop and fine-tune the system, ensuring your needs are met today and well into the future.

> "Today I experienced first-hand what **modernization of school administration software** looks like in my intro to Qmlativ."
>
> *- Dr. R.J. Gravel, Superintendent*
> *Glenbrook High School District 225, IL*

Key Benefits of Qmlativ

- An easy-to-navigate dashboard provides a tailored experience to suit every user's needs.
- Uses system architecture that enhances security and interoperability based on a SQL environment.
- Features a modern user interface that capitalizes on current environments, from multi-screen desktops to mobile platforms.
- Includes embedded customization and workflow tools to meet your unique needs for managing important tasks and processes.

Streamline processes and save paper with online forms. Employees can use online forms to request changes to things like demographic, direct deposit, and emergency contact information.

Focus on Culture

IMPROVE PROCESSES. EMPOWER EMPLOYEES. DEVELOP HIGH PERFORMERS.

Your mission starts with your people. With the right tools, they'll be more productive, and happier too.

REMOVE RED TAPE

- Nobody enjoys bureaucracy. By automating your workflows and approval processes, you can create transparency, removing a major source of frustration for employees.
- Reduce steps needed for core tasks such as reporting, reimbursement, and payroll.

BE A BETTER LEADER

- Is your leadership team still leaning on spreadsheets? With Administrator Access, it has never been easier to tackle the responsibilities of management, thanks to real-time data access.
- Awareness is the key to effective leadership. Base your coaching conversations on solid data, not just observation.

NURTURE AND GROW

- With ongoing development opportunities, you can be sure that your team will feel welcomed, challenged, and supported.
- Self-service, multimedia, and just-in-time help options build staff confidence and drastically reduce troubleshooting calls to your IT staff.

Clock Out from Risk

TRUST YOUR DATA. INSTITUTE CONTROLS. REDUCE ERRORS.

From honest mistakes to malicious intent, no school or district is immune to risk. But there's plenty you can do to stay protected and compliant.

TRACK TIME, SAVE TIME

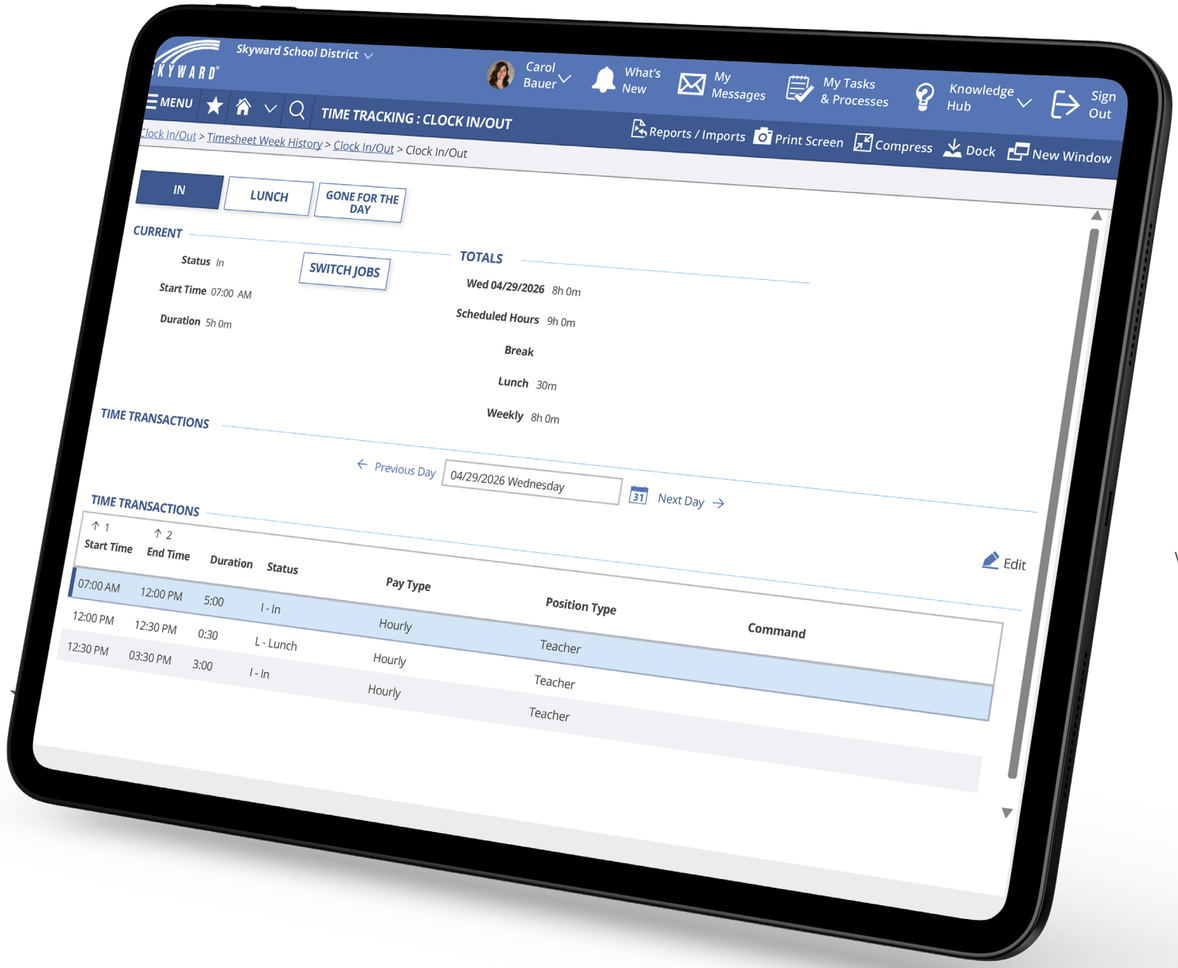

- Payroll error rates increase when employees have to interpret hand-written time sheets or manually enter data. Make sure every payroll is accurate with Qmlativ's electronic timekeeping solution.
- Live tiles show real-time stats, while charts and graphs make data easy to consume. Custom reports mean you'll be looking at what matters to you.

DON'T SWEAT AUDITS

- Built-in electronic paper trails make it easy to track and identify changes to historical records.
- You can rest easy knowing that your hosting provider undergoes an annual SASE 16 SOC 1 audit to ensure ongoing data security.

LEAVE COMPLIANCE TO US

- Built-in reports and safeguards remove the burden of staying compliant with state and federal requirements.
- You'll have a dedicated team of specialists monitoring the guidelines in your state, so you can stay ahead of any changes.

With Time Tracking, employees can easily track their hours online.

Make Informed Decisions

ACTIONABLE ANALYTICS. REAL-TIME NUMBERS. FISCAL TRANSPARENCY.

The business office works with numbers every day, but the vital work is using that data to drive progress and be more effective at what you do.

TRUST THE DASHBOARD

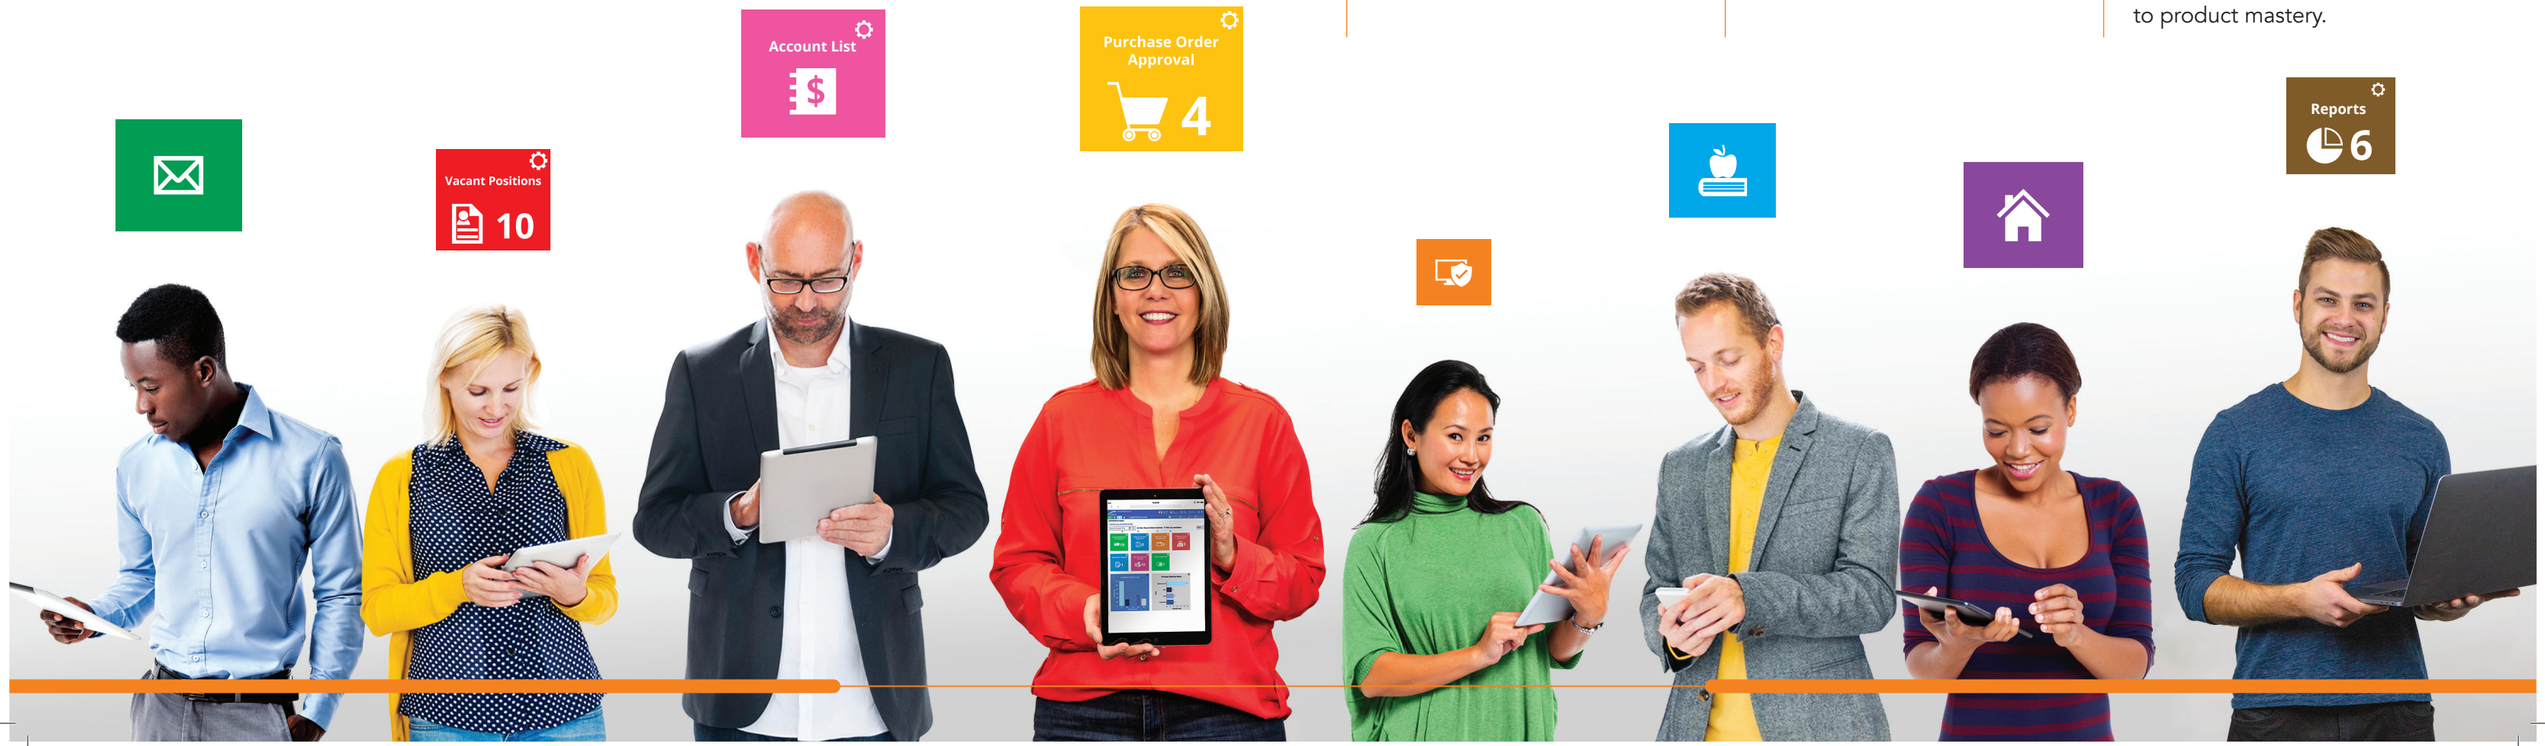

- Experience a more accessible and visually appealing presentation of vital Key Performance Indicators.
- Manage your priorities. Customize your layout. Review up-to-date graphs, charts, and live data counts from the moment you log in.

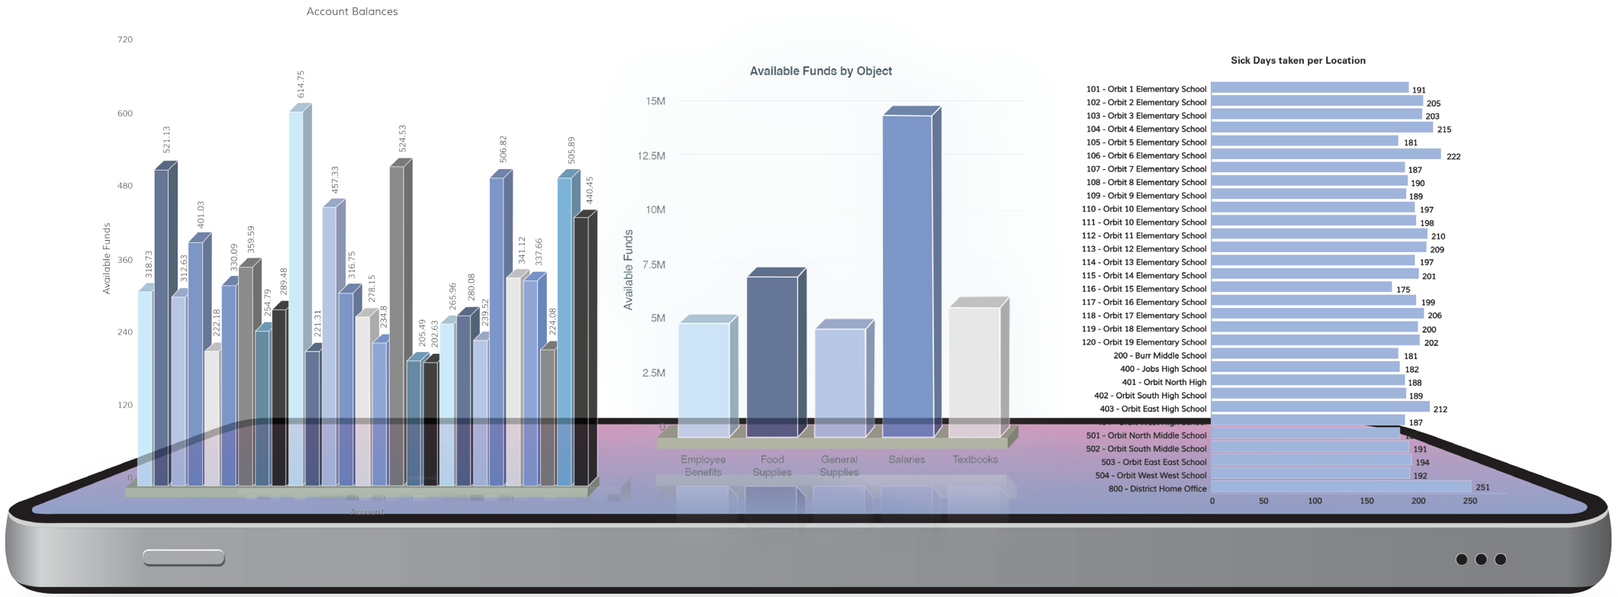

REPORT ON EVERYTHING

- The benefit of a built-in report writer means getting beautiful, easy-to-read reports for the data you need most.
- The report writer allows users to add and report on custom fields, brand the layout, and present information directly from the system.

STAY AHEAD OF STAFFING

- Staff planning allows you to view various budget scenarios when it comes to positions and the impact those will have on your overall finances.
- Focus your succession planning on leadership skills over technical savvy. Our in-depth training courses provide a pathway to product mastery.

Charts and graphs make data easy to consume.

More Than a Provider. Always a Partner.

YOU CAN COUNT ON US.

When you join the Skyward community, you'll gain a dependable support system throughout implementation and beyond.

The last thing you want is to feel like you've been left to figure out a sophisticated solution on your own. Our in-depth consultation will help you get the most from your investment.

Put your staff at ease with our expert training program and the most effective support model in school business software today.

A Better Experience

TECHNOLOGY. COMMUNITY. LEADERSHIP.

Your partnership with Skyward is about more than just technology. It's about improving your entire culture and fostering a better work environment for your team.

You have an opportunity to become more efficient, consolidate multiple systems, and save thousands of dollars along the way. Yes, change is hard, but a failure to move now may put you in a bad spot in the years to come.

"THE OLD WAY" IS ON ITS WAY OUT. THERE'S JUST TOO MUCH AT STAKE TO SETTLE FOR OUTDATED PROCESSES AND TECHNOLOGY.
