

SHAPER ORIGIN CNC ROUTER

Origin is the world's first hand-held CNC router. With onboard automatic cut correction, Origin makes precision cutting easy. Create simple designs on the tool itself, using Shaper Studio, upload an existing design of your own, or access Origin-ready files and hardware templates on ShaperHub.

SHAPER WORKSTATION

Designed to streamline your workflow and expand Origin's abilities by offering rapid, repeatable, and precise fixturing of a wide range of stock configurations. Reduce setup time with a reusable ShaperTape field, easily adjustable shelf for small or difficult-to-fixture workpieces, indexing pins for easy alignment and registration, and an Angle Fence for aligning stock at quick angles.

SHAPER PLATE

Align Plate to your workpiece and let Origin do the rest. Hundreds of digital files available on ShaperHub. Endlessly flexible and fast to set up, Plate combines with the ShaperHub Hardware Catalog and enables you to install a wide range of hardware, inlay bowties, round corners, and more.
