

Brightly Asset Essentials™

How does it work?

Asset Essentials is a cloud-based maintenance solution developed for daily and advanced maintenance operations management. With our software, users can initiate, assign and track the progress of maintenance work orders; manage assets and equipment; develop advanced workflows with preventive maintenance (PM) scheduling; utilize Internet of Things (IoT) technology for predictive maintenance (PdM); and manage inventory. In addition, Asset Essentials has functionality for document management, reporting and mobile capabilities.

Simplify the day-to-day.

Give your team anytime, anywhere access to the information and tools they need to do their jobs on our cloud-based platform. Manage all work orders, assets and maintenance activity in one central location with improved communication.

Know what to do.

Eliminate paper and digitize work orders to make your team's jobs easier and more streamlined with request automation, inventory management and work order prioritization.

Predict the future.

See the current state of your operations and develop a plan for the future. Drive decision-making with configurable data analysis and built-in reports from a central dashboard.

Get back to work that matters.

Find smarter solutions to tough operations challenges by empowering your team to do more impactful work. With better tools in hand, you can better serve your organization.

Know Your Inventory Answer the questions:

- What assets do I own?
- Where are they located?
- What condition are they in?

Improve Operations

- Streamline work orders, time and attendance
- Inspect and analyze conditions
- Maximize uptime and manage risk
- Report on performance

Asset Essentials Value of Investment

A typical maintenance team can save up to:

60 min

per work order

35%

Decrease of the number of machine failures, and can also save you 12-18% on average over reactive maintenance.
