

First Alt® provides districts with a safe and reliable transportation option for special needs students, students experiencing homelessness, out-of-district and hard-to-serve students. First Alt's fleet of small-capacity vehicles are expertly operated and maintained, giving districts flexibility in their transportation program and reducing costs for low-capacity trips.

Our Focus

- Students with special needs
- MKV students
- Hard-to-Serve trips, including:
 - Special programs
 - Inefficient routes
 - Out-of-district schools

How We Do It

- Assess the district's transportation needs
- Obtain transportation details from the district
- Route students and contact parents/guardians
- Identify qualified local transportation resources
- Provide drivers with best-in-class training
- Provide the same driver, for every student, every day

SUVs

Minivans

Wheelchair Accessible Vans

Sedans

First Alt provides school districts the opportunity to meet all their transportation needs with one partner, a first for the student transportation industry, from the leader in the industry.

Leadership Team

- The most experienced leadership team in alternative student transportation.

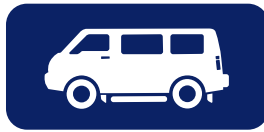

A Complete K-12 Transportation Solution

- First Alt completes the offering from First Student, allowing us to provide all forms of transportation to all students.

Alternative Transportation Fleet

Driver Training

- Unlike other alternative transportation services, First Alt driver training focuses specifically on transporting students with special needs.

Drug & Alcohol Testing

- All drivers are subject to pre-service, random, post-accident and reasonable suspicion.

Industry Leading Technology

- Our technology tracks every trip and every student, providing real-time updates to districts and parents.

Background & MVR Checks

- Initial and continuous background and MVR checks.

First Alt Identification

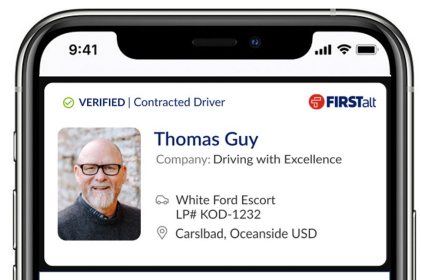

- All drivers and vehicles will be easily identifiable.
