We invite you to promote lasting health and academic success through the evidence-based [The OrganWise Guys](#) program ... All for as little as **\$2.50 per student** for the entire 2026-2027 school year thanks to special contracted pricing via The Purchasing Cooperative at Greenbush.

For less than the cost of one school lunch, your students will enjoy a fun, engaging program that teaches nutrition, healthy living, and social-emotional skills with **zero prep work** for teachers and full alignment to state-specific academic and health standards.

This whole-child, whole-school approach is **scientifically proven** to deliver results:

- Statistically significant improvements in key health measures (BMI, blood pressure, and waist circumference)
- Higher standardized test scores
- Strong outcomes among diverse and low-income student populations

Additional benefits that make implementation effortless:

- A plug-and-play digital platform plus optional physical resources
- Storybooks and activity sheets available in both English and Spanish
- Engages the entire school community (classrooms, **Specials**, cafeteria, afterschool, and summer programs)
- Complimentary teacher training included

Investing in your students' health is an investment in their academic future and lifelong well-being. I'd love to share more about how The OrganWise Guys can support your school with a quick 15-minute call. [You can schedule it here!](#)

Thank you for all you do for your students. I look forward to connecting!
