

TRANSFORM SCHOOL SAFETY WITH NEXUS

Empower your campus with intelligent, proactive protection by using your existing security infrastructure.

www.swc.net

Why neXus?

neXus by South Western Communications turns your intercoms, cameras, door access, and environmental sensors into a smart, AI-powered safety network without costly new hardware or extra personnel.

Key Features

- **Access Control**
 - neXus is platform-agnostic, seamlessly integrating with existing door access systems. Instantly monitor propped doors, unauthorized entries, and trigger automated responses for enhanced campus safety.
- **Camera Integrations**
 - Connect your cameras, regardless of manufacturer, with advanced AI-powered weapon, cell phone, spill, fall, or fight detection, providing real-time live streaming and instant alerts for situational awareness.
- **Vehicle/Trespasser Detection**
 - Be alerted when vehicles enter restricted areas.
- **Vape/Smoke Detection**
 - Real-time alerts to support health and discipline policies.
- **Interactive 3D Map**
 - Respond with precision using live video and real-time room locations.

TRANSFORM SCHOOL SAFETY WITH NEXUS

Data Driven Insights

neXus aggregates data from all your systems, delivering actionable intelligence:

- **Trend Analysis:** Identify patterns (e.g., repeat unauthorized entries, vaping hotspots).
- **Compliance & Accountability:** Automated reporting for district, state, and federal safety regulations.
- **Resource Optimization:** Allocate staff where and when they're most needed.
- **Proactive Prevention:** Address risks before incidents escalate.
- **Lower Insurance Premiums:** Documented risk mitigation can reduce your costs.

How It Works

- **24/7/365 Monitoring** of your current systems.
- **Instant, actionable alerts** to staff and law enforcement.
- **Interactive campus map** for rapid, precise incident response.

Why It Matters

- **Reduce response times**
- **Minimize risks**
- **Protect students, staff, and visitors at all hours**
