3. PRICING

All Equipment, Products, or Services under this Contract will be priced at or below the price stated in Supplier's Proposal.

When providing pricing quotes to Participating Entities, all pricing quoted must reflect a Participating Entity's total cost of acquisition. This means that the quoted cost is for delivered Equipment, Products, and Services that are operational for their intended purpose, and includes all costs to the Participating Entity's requested delivery location.

Regardless of the payment method chosen by the Participating Entity, the total cost associated with any purchase option of the Equipment, Products, or Services must always be disclosed in the pricing quote to the applicable Participating Entity at the time of purchase.

A. **SHIPPING AND SHIPPING COSTS.** All delivered Equipment and Products must be properly packaged. Damaged Equipment and Products may be rejected. If the damage is not readily apparent at the time of delivery, Supplier must permit the Equipment and Products to be returned within a reasonable time at no cost to Sourcewell or its Participating Entities. Participating Entities reserve the right to inspect the Equipment and Products at a reasonable

time after delivery where circumstances or conditions prevent effective inspection of the Equipment and Products at the time of delivery. In the event of the delivery of nonconforming Equipment and Products, the Participating Entity will notify the Supplier as soon as possible and the Supplier will replace nonconforming Equipment and Products with conforming Equipment and Products that are acceptable to the Participating Entity.

Supplier must arrange for and pay for the return shipment on Equipment and Products that arrive in a defective or inoperable condition.

Sourcwell may declare the Supplier in breach of this Contract if the Supplier intentionally delivers substandard or inferior Equipment or Products.

Equipment, Products, or Services may be added or removed from the Hot List at any time through a Sourcwell Price and Product Change Form as defined in Article 4 below.

Hot List program and pricing may also be used to discount and liquidate close-out and discontinued Equipment and Products as long as those close-out and discontinued items are clearly identified as such. Current ordering process and administrative fees apply. Hot List Pricing must be published and made available to all Participating Entities.

4. PRODUCT AND PRICING CHANGE REQUESTS

Supplier may request Equipment, Product, or Service changes, additions, or deletions at any time. All requests must be made in writing by submitting a signed Sourcwell Price and Product Change Request Form to the assigned Sourcwell Supplier Development Administrator. All Participating Entity orders under this Contract must be issued prior to expiration or cancellation of this Contract; however, Supplier performance, Participating Entity

payment obligations, and any applicable warranty periods or other Supplier or Participating Entity obligations may extend beyond the term of this Contract.

Supplier's acceptable forms of payment are included in its attached Proposal. Participating Entities will be solely responsible for payment and Sourcewell will have no liability for any unpaid invoice of any Participating Entity.

B. **ADDITIONAL TERMS AND CONDITIONS/PARTICIPATING ADDENDUM.** Additional terms and conditions to a purchase order, or other required transaction documentation, may be negotiated between a Participating Entity and Supplier, such as job or industry-specific requirements, legal requirements (e.g., affirmative action or immigration status requirements), or specific local policy requirements. Some Participating Entities may require the use of a Participating Addendum, the terms of which will be negotiated directly between the Participating Entity and the Supplier or its authorized dealers, distributors, or resellers, as applicable. Any negotiated additional terms and conditions must never be less favorable to the Participating Entity than what is contained in this Contract.

C. **SPECIALIZED SERVICE REQUIREMENTS.** In the event that the Participating Entity requires service or specialized performance requirements not addressed in this Contract (such as e-commerce specifications, specialized delivery requirements, or other specifications and requirements), the Participating Entity and the Supplier may enter into a separate, standalone agreement, apart from this Contract. Line Item	Question	Response *
10	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested equipment, products or services.	Brine Masters was started in the year 2020, The founder Clay Hildreth has been an industry leader in the Brine Production and Truck Load-out systems for over 23 years and has been awarded numerous patents on Brine Making and Truck Loadout system. We have developed 2 of the other substantial product lines in the industry, (Henderson Brine Extreme and the Cargill Accubrine Product). He sold those product lines to (Henderson and Cargill) Brine Masters is the accumulation of 20+ years of knowledge and expertise in the industry: The Brine Masters Product line starts where the others have left off utilizing what had worked in the past and improved upon where there were challenges. Our objective is to build the best equipment in the industry we are confident will outperform all others, with design, quality of components, durability, and functionality for the end user. Presently we have 3 patents pending that are revolutionizing the industry with performance and functionality while granting good value to the customer. We offer the most comprehensive product line of automated equipment in the industry as it relates to brine making and truck fill / Blending equipment, which enables us to deliver appropriate solutions for the end user. We are not the longest standing company in the industry, however we have the most experience with automated equipment in the industry.

11	What are your company's expectations in the event of an award?	We have customers ask us to be on the Sourcewell Contract, therefore we hope to ease the customers pain by doing so. Presently we have been awarded the MNDOT contract for Brine Equipment and use that cooperative purchasing program as an alternative to Sourcewell. Our preference is to use Sourcewell as our primary sales avenue over alternative bid methods.	*
12	Demonstrate your financial strength and stability with meaningful data. This could include such items as financial statements, SEC filings, credit and bond ratings, letters of credit, and detailed reference letters. Upload supporting documents (as applicable) in the document upload section of your response.	(See attached letter from Regions Bank) Brine Masters is well funded. We likely stock more parts and inventory than any other company in the industry, this allows us to have prompt delivery and post-sales support. Presently we have over 2 million in value of inventory paid for and available for product build and support. In addition, we have cash reserves of over 2 million dollars to be used as needed for future investment as needed. We are profitable, carry low overhead and operate a strong and successful business.	*

Are these individuals your employees, or the employees of a third party?	Manufacturer b. For sales and support we service most customers through direct sales. Our major suppliers such as automation products distributors and suppliers fill in as required or in some cases, we use industrial sub-contractors to install & Service the equipment. There is no 1 answer for all location; rather what Resources are available in each location. In general, we use 3rd party contract manufacturing and support resources more than direct employees, this enables us to quickly ramp up the seasonal demands of our industry. We have found that other industries with like seasonal activity however opposite seasons make for a good fit to share resources for a winning partnership.
